EXPERIENCE

EXP | Engineering, Architecture, Design & Consulting / Maitland, Florida

CREATIVE DESIGNER - July 2022 - Present

Responsible for the production of visuals that convey lighting design concepts through working independently as well as with team members to brainstorm and develop ideas while ensuring that the final product is aligned with the company and client standards.

- Shaped clients' ideas into comprehensive, creative lighting design packages that tell a story
- Prepared and presented lighting presentations for clients; reacted quickly to design updates
- Illustrated lighting glow plans and concept books using Adobe Creative Suite
- Researched relevant project materials
- Built strong internal organization and external relationships

LIGHTING DESIGN INTERN - May 2021 - July 2022

Assisted as needed in project production including drafting, creating fixture cut sheets, AGI calculations, Revit drawings and Photoshop renderings. Responsible for being self-starting, results oriented, personable, organized, and have a high level of experience in CAD / 3-D skills

- Provided design and analysis in support of the production of design, construction, and contract documents while proactively assisting whenever needed
- Created fixture cut sheets, schedules and detail sheets per project using Publisher and Bluebeam and AutoCAD MEP

Universal Creative / Orlando, Florida

INTERIOR/ARCHITECTURAL DESIGN INTERN - September 2019 - May 2020

Assisted team with development & design across Universal's Epic Universe. Aided design & project management teams with architecture and construction to achieve immediate, short and long term milestones and goals.

- Designed color renderings, created imagery boards, graphic illustrations, and color material design using the Adobe Creative Suite (Photoshop, InDesign, and Illustrator)
- Performed research and documentation, floor plans, elevations, using Lumion, CAD, Revit, Sketchup and Excel
- Participated in Architectural and Interior Design project design development, technical documentation, and construction activities with Universal Creative and design consultants
- Ensured work complied with all architectural and engineering standards, codes, and specifications using SPEXX or Excel to ensure consistency and project performance
- Informed management of productivity, quality control, and document management, as well as any issues that affect design, quality, budget, progress, and safety

HDB Design Group, LLC. / Daytona Beach

COMMERCIAL HOSPITALITY DESIGNER - November 2018 - September 2019

Hospitality field focused on hotel projects located all over the United States reaching from Alaska to the Keys. Responsible for being self-motivated, efficient, & willing to learn and grow.

- Selected FF&E, performed material cost estimation and created budgets through coordinated meetings with material reps
- Organized project control journals and digitally rendered /drafted using Revit / AutoCAD / Photoshop to create virtual and physical color boards

Florida Hospital (AdventHealth) Medical Group / Maitland, Florida

FACILITIES DESIGN COORDINATOR - April 2018 - November 2018

Responsible for coordinating the activities necessary for the acquisition / renovation of office spaces, providing timelines, & ensuring that spaces are prepared in a timely manner.

- Managed multiple projects with short deadlines and implemented organizational and time management skills
- Reviewed shop drawings, working drawings, planned selected furniture / equipment for spaces, and provided spec sheets to architects
- Coordinated designer, architectural, and construction processes/timelines using Smartsheet and oversaw all of the renovations for acquisitions
- Developed standard finishes for all FHMG projects after negotiating furniture/finish pricing
